Streamlined Third-Party Integration for Schools

PowerSchool and Mantle International unify SIS, ERP, and LMS platforms—streamlining school operations through seamless data integration.

Mantle International links PowerSchool with ERP and third-party platforms like Odoo and Zenda. **Schools can sync data between systems** for automated invoicing seamless fee collection, and other functions in their existing edtech ecosystem.
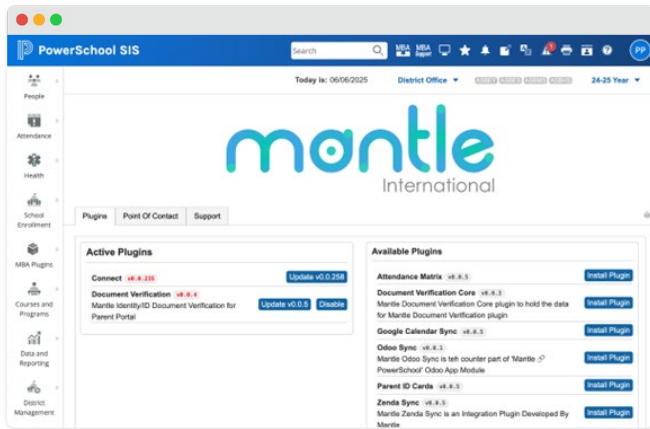

Connecting the dataflow across your systems

This integration automates financial processes, syncs student data, and reduces admin overhead with Mantle Connect plugins and customizations.
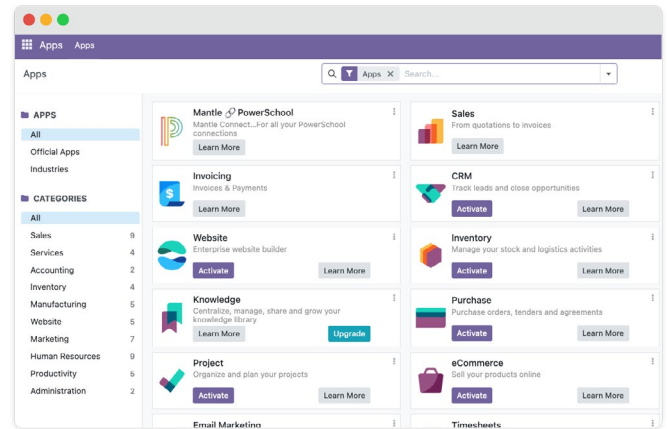

Impact at a glance

- **Over 50 years** of combined team experience

- **98% client satisfaction** within MENA region

Mantle Connect for ERP integration

A centralized dashboard for managing Mantle plugins, data sync, invoicing, and payments

✓ **Mantle plugin management console**
Mantle Connect installs as a PowerSchool plugin to manage other Mantle plugins

✓ **Subscription model**
Pay-as-you-go model

✓ **Semi-automated plugin updates**
Simple, one-click updates

✓ **Centralized plugin access**
Manage all Mantle plugins from one interface

Seamless integration with PowerSchool

Bi-directional sync of financial and student data between ERP and SIS

✓ **Automated data synchronization**
Seamlessly sync student, parent, and staff records between SIS and ERP systems

✓ **Flexible fee structures**
Supports discounts, grade-specific billing, and special cases via ERP
